THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all the news in a readable shape, and to tell the truth though the heavens fall.

THE SUN has been, is and will contin e to be

independent of everybody and everything save the Truth and its own convictions of duty. That

is the only policy which an honest news-pa, er need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American jeurnal. THE CUN is the newspaper of the people. It mot for the rich man against the poor man, or or the poor man against the rich man, but it community. It is not the organ of any person, class, sect or party. There need be no mystery as out its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat as against the dishonest Re-publican, and for the honest Republican against the dishonest Democra. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measure; are in agree ment with the Constitution and with the princi ples upon which this republic was founded for the p.ople. Whenever the Constitution and

the p.ople. Whenever the Constitution and conscitutional principles are violated—as in the outrageous con pracy of 18.5, by which a man not elected was placed in the President's office, where he till remains—it speaks out for the righ. That is The un's idea of independence. In this respect there will be no change in its programme for 1872.

The fun has fairly earned the hearty hatred to raical, frauds, and humbugs of all sorts and size. It hopes to deserve that hatred not less in the year 1873 than in 18.8, 1877, or any year gone by. The Sun is printed for the men and women of to day, whise concern is chiefly with the affairs of to day. It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate intelligence of est, fullest and most accurate intelligence of whatever in the wide world is worth attention.
